This Bidding Document for procurement of works has been prepared by the Public Procurement

31. Clarification and Changes to Bids

- 31.1 To assist in the examination, evaluation, comparison and post-qualification of the bids, the PDE may, at its discretion, ask any bidder for a clarification of its bid, including breakdowns of unit rates

or prices. Any clarification submitted by a bidder that is not in response to a request by the PDE

shall not be considered. The PDE's request for clarification and the bidder's response shall be in writing and copied to all bidders for information purposes. No change in the prices or substance of the bid shall be sought, offered, or permitted, except to reflect the price of a missing or non-conforming item or component., in accordance with ITB 33.

- 31.2 If a bidder does not provide clarifications of its bid by the date and time set in the PDE's request for clarification, its bid shall be rejected.

32. Compliance and Responsiveness of Bids

- 32.1 The PDE's determination of a bid's compliance and responsiveness is to be based only on the contents of the bid itself and the findings recorded after a due diligence and/or post qualification if conducted.

- 32.2 A substantially compliant and responsive bid is one that conforms to all the terms, conditions, and specifications of the bidding document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that:

33. Nonconformities, and Omissions

- 33.1 Provided that a bid is substantially compliant and responsive, the PDE may waive any non-conformity or omission in the bid that does not constitute a material deviation.

- 33.2 Provided that a bid is substantially compliant and responsive, the PDE may request that the bidder submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the bid related to documentation requirements. Such omission shall not be related to any aspect of the price of the bid. Failure of the bidder to comply with the request shall result in the rejection of its bid.

- 33.3 Provided that a bid is substantially compliant and responsive, the PDE shall rectify nonmaterial nonconformities or omissions. To this effect, the bid price shall be adjusted, for comparison purposes only, to reflect the price of the missing or non-conforming item or component. The cost of

any missing items will be added to the bid price using the highest price from other bids submitted.

34. Stages of Evaluation: Using the Technical Compliance Selection Evaluation Method

34.1 Preliminary Examination of Bids - Eligibility and Administrative Compliance

- a. The PDE shall examine the legal documentation to establish the eligibility of the bidders and to verify the validity and authenticity of the documents submitted by the bidder.
- b. If after the examination of eligibility, the PDE determines that the bid is not compliant, it shall reject the bid with the exception of rectification of omissions in accordance with ITB 33.2.

34.2 The PDE shall confirm that the following administrative compliance documents and information have been provided in the bid. If any of these documents or information is missing or contrary to the requirements in the bidding document, the bid shall be rejected:

- c. A Power of Attorney in accordance with ITB 23.2; and
- d. A Bid Security or Bid Securing Declaration, whichever is applicable, in the appropriate form and amount.

34.3 Eligibility and administrative compliance shall be determined on a pass or fail basis and a bid which is not eligible or administratively compliant shall be rejected at the preliminary stage of evaluation.

35. Detailed Evaluation

35.1 The PDE shall examine the technical aspects of the Bid submitted in accordance with ITB 17, in particular, to confirm that all requirements of Section 6, SORs have been met without any material deviation, reservation or omission. The PDE shall only use the criteria and methodologies defined in this clause and in Section 3, Evaluation Methodology and Criteria. No other criteria or methodology shall be permitted.

35.2 The determination shall be based upon an examination of the documentary evidence of the bidder's qualifications submitted by the bidder, pursuant to ITB Clause 5, to clarifications in accordance with ITB Clause 31 and the qualification criteria indicated in Section 3, Evaluation Methodology and Criteria.

35.3 If, after the examination of the terms, conditions and requirements, the PDE determines that the bid is not substantially responsive in accordance with ITB 32, it shall reject the bid.

36. Currency and Exchange Rate

- 36.1 Unless otherwise specified in the BDS the currency that shall be used for evaluation purposes for all bids shall be Uganda Shillings.
- 36.2 The exchange rate shall be the prevailing Bank of Uganda selling exchange rate at the date of bid submission deadline.

37. Financial Comparison of Bids

- 37.1 The bids that are responsive to the requirement for detailed evaluation shall be financially examined and compared to determine the best evaluated bid.
- 37.2 To financially evaluate a bid, the PDE shall only use the criteria and methodologies defined in this clause and in Section 3, Evaluation Methodology and Criteria. No other criteria or methodology shall be permitted.
- 37.3 To financially compare bids, the PDE shall:
- a. Correct any non-conformity or omission;
 - b. Apply any discounts offered in accordance with ITB 18;

 - d. Convert all bids to a single currency in accordance with ITB 19;
 - e. Apply any margin of preference, where applicable;
 - f. Determine the total evaluated price of each bid.

38. Abnormally Low Bids

- 38.1 An abnormally low bid is one where the bid price, in combination with other elements of the bid, appears so low that it raises material concerns as to the capability of the bidder in regards to the bidder's ability to perform the contract for the offered bid price or that genuine competition between bidders is compromised.
- 38.2 In the event of identification of a potentially abnormally low bid, the PDE shall seek written clarifications from the bidder, including detailed price analyses of its bid price in relation to the subject matter of the contract, scope, proposed methodology, schedule, allocation of risks and responsibilities and any other requirements of the bidding document.
- 38.3 After evaluation of the price analyses, in the event that the PDE determines that the bidder has failed to demonstrate its capability to perform the contract for the offered bid price, the PDE shall reject the bid.

39. Unbalanced and/or Front-loaded bids

- 39.1 The PDE shall for the lowest evaluated bid price consider a price that appears to:
- a. Be unbalanced;
 - b. Shows a misunderstanding of the requirements; or
 - c. Is intended to front load earnings.
- 39.2 If the bid, which results in the lowest evaluated bid price, is seriously unbalanced, shows a misunderstanding of the requirements or front loaded in the opinion of the PDE, the PDE may require the bidder to produce detailed price analyses for any or all items of the Bill of Quantities,

to demonstrate the internal consistency of those prices with the construction methods, schedule proposed and any other requirements of the bidding document.

- 39.3 After the evaluation of the information and detailed price analyses presented by the bidder, taking into consideration the schedule of estimated contract payments the PDE may as appropriate:
- a. Accept the bid; or
 - b. Agree on a payment mode that eliminates the inherent risk of the PDE paying too much for undelivered works; or
 - c. Reject the bid.
- 39.4 The PDE reserves the right to accept or reject any variation, deviation, or alternative offer. Variations, deviations, and alternative offers and other factors which are in excess of the requirements of the bidding documents or otherwise result in unsolicited benefits for the PDE will not be taken into account in bid evaluation, unless otherwise specified in Section 3, Evaluation Methodology and Criteria.
- 39.5 The estimated effect of any price adjustment conditions under Clause 57 of the GCC, during the period of implementation of the contract, will not be taken into account in bid evaluation, unless otherwise indicated in Section 3, Evaluation Methodology and Criteria.

40. Margin of Preference

- 40.1 Unless otherwise specified in the BDS, a margin of preference shall apply. Where a margin of preference applies, its application and detail shall be specified in Section 3, Evaluation Methodology and Criteria.
- 40.2 For the purpose of granting a margin of domestic preference, bids will be classified in one of three groups, as follows:
- a. **Group A:** Bids from contractors incorporated or registered in Uganda with more than fifty percent of the bidder's shareholding owned by Ugandan citizens or by the Government or a PDE of Uganda;
 - b. **Group B:** Bids from JVs registered in Uganda and including a contractor qualifying under the conditions in paragraph (a) which holds more than fifty percent beneficiary interest in the JV; and
 - c. **Group C:** All other bids which do not qualify for preference under paragraphs (a) or (b).
- 40.3 Bidders claiming eligibility for a margin of preference must complete the declarations in the Bid Submission Sheet and shall provide the following documentary evidence of their eligibility:
- a. National Identity Card or copies of bio-data passport pages to establish the nationality of the bidder or shareholder;
 - b. The relevant company forms or their equivalent indicating the shareholding percentages.

41. Post-qualification Evaluation

- 41.1 The Evaluation Committee shall determine to its satisfaction whether the bidder that is selected as having submitted the best evaluated bid is qualified to perform the contract satisfactorily.
- 41.2 An affirmative determination shall be a prerequisite for award of the contract to the bidder. A negative determination shall result in disqualification of the bid, in which event the PDE shall

proceed to the next best evaluated bid to make a similar determination of that bidder's capabilities to perform satisfactorily.

41.3 Post-qualification shall be conducted in accordance with the provisions of the bidding document.

42. Determination of Best Evaluated Bid

42.1 The best evaluated bid shall be the lowest priced bid which is eligible, administratively and technically compliant to the requirements specified in the bidding document.

F. Award of Contract

43. Award Procedure and Notice of Best Evaluated Bidder

43.1 An award decision by the Contracts Committee is not a contract. The bidder with the best evaluated bid shall be awarded the contract following an adjudication by the Contracts Committee.

43.2 Negotiations may be held with the bidder before award of the contract.

43.3 The PDE shall issue a Notice of Best Evaluated Bidder (NOBEB) within five (5) working days after the decision of the Contracts Committee to award a contract, deliver a copy of the notice to all bidders who participated in the bidding process, place such notice on its notice board for display for ten (10) working days and publish it on the website of the Authority and the website of the Entity where applicable. No contract shall be signed within the period of ten (10) working days after the date of display of the best evaluated bidder notice.

44. PDE's Right to Reject Bids or Cancel the Bidding Process

44.1 The PDE reserves the right to reject any bid or to cancel the bidding process at any time prior to contract award, without thereby incurring any liability to bidders. In case of cancellation, all bid securities shall be returned to bidders.

45. Signing of the Contract

45.1 On expiry of the ten (10) working days' period after display of the best evaluated bidder notice and upon approval by the Attorney General where applicable, the PDE shall promptly sign a contract with the successful bidder. An award shall be confirmed by the written contract signed by both the bidder and the PDE.

46. Effectiveness of the Contract

46.1 Failure by the successful bidder to promptly sign the contract shall constitute sufficient ground for annulment of the contract award decision and forfeiture of the Bid Security or execution of the Bid Securing Declaration. In that event, the PDE may award the contract to the next best ranked bidder whose bid was evaluated at the financial comparison stage provided it is still valid.

46.2 Effectiveness of the contract shall be subject to submission of a satisfactory performance security where applicable and any other conditions specified in the contract.

46.3 A contract shall not be entered into by an Accounting Officer with a bidder during the period of administrative review as provided for under the PPDA Act Cap 205.

47. Debriefing of Bidders

47.1 Where a request for debriefing is received from unsuccessful bidders, the PDE shall promptly give the bidder a written debrief giving the reasons for the failure of their bid, after the signing of the contract.

48. Performance Security or Performance Securing Declaration and Environmental and Social Performance Security

48.1 Within twenty-one (21) calendar days after signing of the contract, the successful bidder shall where applicable, furnish to the PDE a Performance Security or Performance Securing Declaration and, if required in the BDS, the Environmental and Social (ES) Performance Security in the amount stipulated in the SCC and in the form of an on-demand Bank Guarantee or insurance bond as stipulated in Section 9, denominated in the type and proportions of the currencies of the contract. The Performance Security shall be issued by a Bank or insurance company located in Uganda or a foreign Bank through correspondence with a Bank located in Uganda.

48.2 Failure of the successful bidder to submit the above-mentioned Performance Security or Performance Securing Declaration and, if required in the BDS, the Environmental and Social (ES) Performance Security, shall constitute sufficient ground for annulment of the contract award decision. In this case, the successful bidder's Bid Security shall be forfeited or the conditions of the Bid Securing Declaration shall be executed. In that event, the PDE may award the contract to the next best ranked bidder whose bid was evaluated at the financial comparison stage provided it is still valid.

48.3 Where a provider is required to provide a Performance Security or Performance Securing Declaration, a bid security from that provider shall not be released until a satisfactory Performance Security or Performance Securing Declaration is received and verified by the PDE.

49. Administrative Review

49.1 A bidder may seek administrative review for any omission or breach by the PDE in accordance with the Public Procurement and Disposal of Public Assets Act, Cap 205, Regulations and guidelines made thereunder.

49.2 The PDE shall promptly provide a bidder who seeks administrative review with:

There will be no retaliation against any person who raises a concern in good faith about any behavior prohibited by this Code of Conduct. Such retaliation would be a violation of this Code of Conduct.

CONSEQUENCES OF VIOLATING THE CODE OF CONDUCT

Any violation of this Code of Conduct by Contractor’s Personnel may result in serious consequences, up to and including termination and possible referral to legal authorities.

36. Replacement of Adjudicator

36.1 Should the adjudicator resign or die, or should the PDE and the contractor agree that the adjudicator is not functioning in accordance with the provisions of the contract, a new adjudicator will be jointly appointed by the PDE and the contractor. In case of disagreement between the PDE and the contractor, within 30 days, the adjudicator shall be designated by the Appointing Authority designated in the SCC at the request of either party, within 14 days of receipt of such request.

B. Time Control

37. Program

37.1 Within the time stated in the SCC, the contractor shall submit to the project manager for approval a program showing the general methods, arrangements, order, and timing for all the activities in the works.

37.2 An update of the program shall be a program showing the actual progress achieved on each activity and the effect of the progress achieved on the timing of the remaining work, including any changes to the sequence of the activities.

37.3 The contractor shall submit to the project manager for approval an updated program at intervals no longer than the period stated in the SCC. If the contractor does not submit an updated program within this period, the project manager may withhold the amount stated in the SCC from the next payment certificate and continue to withhold this amount until the next payment after the date on which the overdue program has been submitted.

37.4 The project manager's approval of the program shall not alter the contractor's obligations. The contractor may revise the program and submit it to the project manager again at any time. A revised program shall show the effect of variations and compensation events.

38. Extension of the Intended Completion Date

38.1 The project manager shall extend the intended completion date if a compensation event occurs or a variation is issued which makes it impossible for completion to be achieved by the intended completion date without the contractor taking steps to accelerate the remaining work, which would cause the contractor to incur additional cost.

38.2 The project manager shall decide whether and by how much to extend the intended completion date within 21 days of the contractor asking the project manager for a decision upon the effect of a compensation event or variation and submitting full supporting information. If the contractor has failed to give early warning of a delay or has failed to cooperate in dealing with a delay, the delay by this failure shall not be considered in assessing the new intended completion date.

39. Acceleration

- 39.1 When the PDE wants the contractor to finish before the intended completion date, the project manager will obtain priced proposals for achieving the necessary acceleration from the contractor. If the PDE accepts these proposals, the intended completion date will be adjusted accordingly and confirmed by both the PDE and the contractor.
- 39.2 If the contractor's priced proposals for an acceleration are accepted by the PDE, they are incorporated in the contract price and treated as a variation.

40. Delays Ordered by the Project Manager

The project manager may instruct the contractor to delay the start or progress of any activity within the works.

41. Management Meetings

- 41.1 Either the project manager or the contractor may require the other to attend a management meeting. The business of a management meeting shall be to review the plans for remaining work and to deal with matters raised in accordance with the early warning procedure detailed in GCC 42.
- 41.2 The project manager shall record the business of management meetings and provide copies of the record to those attending the meeting and to the PDE. The responsibility of the parties for actions to be taken shall be decided by the project manager either at the management meeting or after the management meeting and stated in writing to all who attended the meeting.

42. Early Warning

- 42.1 The contractor shall within 28 days from the date it became aware or ought to have become aware give notice to the project manager of specific likely future events or circumstances that may adversely affect the quality of the work, increase the contract price or delay the execution of the works. The project manager may require the contractor to provide an estimate of the expected effect of the future event or circumstance on the contract price and completion date. The estimate shall be provided by the contractor as soon as reasonably possible.
- 42.2 The contractor shall cooperate with the project manager in making and considering proposals for how the effect of such an event or circumstance can be avoided or reduced by anyone involved in the work and in carrying out any resulting instruction of the Project Manager.

C. Quality Control

43. Identifying Defects

43.1 The project manager shall check the contractor's work and notify the contractor of any defects that are found. Such checking shall not affect the contractor's responsibilities. The project manager may instruct the contractor to search for a defect and to uncover and test any work that the project manager considers may have a defect.

44. Tests

44.1 If the project manager instructs the contractor to carry out a test not specified in the specification to check whether any work has a defect and the test shows that it does, the contractor shall pay for the test and any samples. If there is no defect, the test shall be a compensation event.

45. Correction of Defects

45.1 The project manager shall give notice to the contractor of any defects before the end of the defects liability period, specified in the SCC. The defects liability period shall be extended for as long as defects remain to be corrected.

45.2 Every time notice of a defect is given, the contractor shall correct the notified defect within the length of time specified by the project manager's notice.

45.3 The defects liability period specified in the SCC shall start afresh from the date the corrected defects are accepted by the employer.

46. Uncorrected Defects

46.1 If the contractor has not corrected a defect within the time specified in the project manager's notice, the project manager will assess the cost of having the defect corrected, and the contractor will pay this amount.

D. Cost Control

47. Bill of Quantities or Activity Schedule

Option 1: Admeasurement Contracts - Bill of Quantities

47.1 The Bill of Quantities shall contain items for the construction, installation, testing, and commissioning work to be done by the contractor.

47.2 The Bill of Quantities is used to calculate the contract price. The contractor is paid for the quantity of the work done at the rate in the Bill of Quantities for each item.

Option 2: Lump Sum Contracts - Activity Schedule

47.3 The contractor shall provide updated Activity Schedules within 14 days of being instructed to by the project manager. The activities on the Activity Schedule shall be coordinated with the

activities on the program.

47.4 The contractor shall show delivery of materials to the site separately on the Activity Schedule if payment for materials on site shall be made separately.

48. Changes in the Bill of Quantities or Activity Schedule

Option 1: Admeasurement Contracts - Changes in the Bill of Quantities

48.1 If the final quantity of the work done differs from the quantity in the Bill of Quantities for the particular item by more than 25 percent, provided the change exceeds one percent (1%) of the initial contract price, the project manager shall adjust the rate downwards to allow for the change.

48.2 The project manager shall not adjust rates from changes in quantities if thereby the Initial contract price is exceeded by more than 15 percent, except with the prior approval of the PDE.

48.3 If requested by the project manager, the contractor shall provide the project manager with a detailed cost breakdown of any rate in the Bill of Quantities.

Option 2: Lump Sum Contracts - Changes in the Activity Schedule

48.4 The Activity Schedule shall be amended by the contractor to accommodate changes of Program or method of working made at the contractor's own discretion. Prices in the Activity Schedule shall not be altered when the contractor makes such changes to the Activity Schedule.

49. Variations

Option 1: Admeasurement Contracts - Variations

49.1 All variations shall be included in updated programs produced by the contractor.

Option 2: Lump Sum Contracts - Variations

49.2 All variations shall be included in updated programs and Activity Schedules produced by the contractor.

50. Payments for Variations

Option 1: Admeasurement Contracts - Payment for Variations

50.1 The contractor shall provide the project manager with a quotation for carrying out the variation when requested to do so by the project manager. The project manager shall assess the quotation, which shall be given within seven days of the request or within any longer period stated by the project manager and before the variation is ordered.

50.2 If the work in the variation corresponds with an item description in the Bill of Quantities and if, in the opinion of the project manager, the quantity of work above the limit stated in Sub-Clause 48.1 or the timing of its execution do not cause the cost per unit of quantity to change, the rate in the Bill of Quantities shall be used to calculate the value of the variation. If the cost per unit of quantity changes, or if the nature or timing of the work in the variation does not correspond with items in the Bill of Quantities, the quotation by the contractor shall be in the form of new rates for the relevant items of work.

50.3 If the contractor's quotation is unreasonable, the project manager may order the variation and make a change to the contract price, which shall be based on the project manager's own forecast of the effects of the variation on the contractor's costs.

50.4 If the project manager decides that the urgency of varying the work would prevent a quotation being given and considered without delaying the work, no quotation shall be given and the variation shall be treated as a compensation event.

50.5 The contractor shall not be entitled to additional payment for costs that could have been avoided by giving early warning.

Option 2: Lump Sum Contracts - Payment for Variations

50.6 The contractor shall provide the Project Manager with a quotation for carrying out the variation when requested to do so by the project manager. The project manager shall assess the quotation, which shall be given within seven days of the request or within any longer period stated by the project manager and before the variation is ordered.

50.7 If the contractor's quotation is unreasonable, the project manager may order the variation and make a change to the contract price, which shall be based on the project manager's own forecast of the effects of the variation on the contractor's costs. If the project manager decides that the urgency of varying the work would prevent a quotation being given and considered without delaying the work, no quotation shall be given and the variation shall be treated as a compensation event.

50.8 The contractor shall not be entitled to additional payment for costs that could have been avoided by giving early warning.

51. Payment Certificates

51.1 The contractor shall submit to the project manager statements of the estimated value of the work executed less the cumulative amount certified previously. Unless otherwise specified in the SCC, such statements shall be submitted monthly.

51.2 In addition to the above, the statements shall include the following items, as applicable:

- a. Any amounts to be added and deducted for changes in cost in accordance with GCC 57;
- b. Any amount to be deducted for retention, calculated by applying the percentage of retention stated in SCC 58.1 to the total of the above amounts, until the amount so retained by the employer reaches the limit of retention money (if any) stated in the SCC;
- c. Any amounts to be added for the advance payment (if more than one instalment) and to be deducted for its repayments in accordance with GCC 61; and
- d. Any other additions or deductions which may have become due under the contract or otherwise including those under GCC 54.

51.3 The project manager shall check the contractor's statement and certify the amount to be paid to the contractor.

51.4 The value of work executed shall be determined by the project manager.

51.5 The value of work executed shall comprise the value of:

- a. The quantities of the items in the Bill of Quantities completed for admeasurement contracts; or
- b. Completed (fully or partially) activities in the Activity Schedule for lump sum contract

activities.

51.6 The value of work executed shall include the valuation of variations and compensation events.

51.7 The project manager may exclude any item certified in a previous certificate or reduce the proportion of any item previously certified in any certificate in the light of later information. Issue of Interim Payment Certificates

52. Issue of Interim Payment Certificates

52.1 No amount will be certified or paid until the PDE has received and approved the Performance Security and, if applicable, the ES Performance Security. Thereafter, the project manager shall, within 28 days after receiving a statement and supporting documents, deliver to the PDE and to the contractor an Interim Payment Certificate which shall state the amount which the project manager fairly determines to be due, with all supporting particulars for any reduction or withholding made by the project manager on the statement if any.

An Interim Payment Certificate shall be withheld for any of the following reasons:

- a. If anything supplied or work done by the contractor is not in accordance with the contract, the cost of rectification or replacement may be withheld until rectification or replacement has been completed;
- b. If the contractor was or is failing to perform any work in accordance with the contract, and had been so notified by the Project Manager, the value of this work may be withheld until the it has been performed and/or
- c. If the contractor was, or is, failing to perform any ESHS obligations or work under the contract, the value of this work or obligation, as determined by the engineer, may be withheld until the work or obligation has been performed, and/or the cost of rectification or replacement, as determined by the engineer, may be withheld until rectification or replacement has been completed. Failure to perform includes, but is not limited to the following:
 - i. Failure to comply with any ESHS obligations or work described in the Statements of Requirements which may include: working outside site boundaries, excessive dust, failure to keep public roads in a safe usable condition, damage to offsite vegetation, pollution of water courses from oils or sedimentation, contamination of land e.g. from oils, human waste, damage to archeology or cultural heritage features, air pollution as a result of unauthorized and/or inefficient combustion;
 - ii. Failure to regularly review Environmental and Social Management Plan and/or update it in a timely manner to address emerging ESHS issues, or anticipated risks or impacts;
 - iii. Failure to implement the Environmental and Social Management Plan e.g., failure to provide required training or sensitization;
 - iv. Failure to have appropriate consents/permits prior to undertaking works or related activities;
 - v. Failure to submit the relevant reports of the Environmental and Social Management Plan, or failure to submit such reports in a timely manner;
 - vi. Failure to implement remediation as instructed by the project manager within the specified timeframe (e.g., remediation addressing non-compliance/s).

52.2 If an amount certified is increased in a later certificate or as a result of an award by an adjudicator

or an arbitrator, the contractor shall be paid interest upon the delayed payment as set out in this clause. Interest shall be calculated from the date upon which the increased amount would have been certified in the absence of dispute.

52.3 Unless otherwise stated, all payments and deductions will be paid or charged in the proportions of currencies comprising the contract price.

52.4 Items of the works for which no rate or price has been entered in will not be paid for by the PDE and shall be deemed covered by other rates and prices in the contract.

53. Payments

53.1 Payments shall be adjusted for deductions for advance payments and retention. The PDE shall pay the contractor the amounts certified by the project manager within 30 days of the date of each certificate. If the PDE makes a late payment, the contractor shall be paid interest on the late payment in the next payment. Unless otherwise specified in the SCC simple interest shall be calculated from the date by which the payment should have been made up to the date when the late payment is made at the prevailing rate of interest for commercial borrowing for each of the currencies in which payments are made.

54. Compensation Events

54.1 The following shall be compensation events:

- a. The PDE does not give access to a part of the site by the site possession date stated in the SCC.
- b. The PDE modifies the schedule of other contractors in a way that affects the work of the contractor under the contract.
- c. The project manager orders a delay or does not issue drawings, specifications, or instructions required for execution of the works on time.
- d. The project manager instructs the contractor to uncover or to carry out additional tests upon work, which is then found to have no defects.
- e. Ground conditions are substantially more adverse than could reasonably have been assumed before signing of the agreement from the information issued to bidders (including the site investigation reports), from information available publicly and from a visual inspection of the site.
- f. The project manager gives an instruction for dealing with an unforeseen condition, caused by the PDE, or additional work required for safety or other reasons.
- g. Other contractors, public authorities, utilities, or the PDE does not work within the dates and other constraints stated in the contract, and they cause delay or extra cost to the contractor.
- h. The effects on the contractor of any of the PDE's risks.
- i. The project manager unreasonably delays issuing a certificate of completion.
- j. Other compensation events described in the SCC or determined by the project manager shall apply.

54.2 If a compensation event would cause additional cost or would prevent the work being completed before the intended completion date, the contract price shall be increased and/or the intended completion date shall be extended. The project manager shall decide whether and by how much the contract price shall be increased and whether and by how much the intended completion date shall be extended.

54.3 As soon as information demonstrating the effect of each compensation event upon the contractor's forecast cost has been provided by the contractor, it shall be assessed by the project manager, and

the contract price shall be adjusted accordingly. If the contractor's forecast is deemed unreasonable, the project manager shall adjust the contract price based on the project manager's own forecast. The project manager will assume that the contractor will react competently and promptly to the event.

54.4 The contractor shall not be entitled to compensation to the extent that the PDE's interests are adversely affected by the contractor's not having given early warning or not having cooperated with the project manager.

55. Tax

55.1 The project manager shall adjust the contract price if taxes, duties, and other levies are changed between the date 28 days before the submission of bids for the contract and the date of the final completion certificate. The adjustment shall be the change in the amount of tax payable by the contractor, provided such changes are not already reflected in the contract price or are a result of Clause 57.

56. Currencies

56.1 Unless otherwise specified in the SCC, payments shall be in Uganda Shillings. Where the SCC allows payments in other currencies other than Uganda Shillings, the exchange rates used for calculating the amounts to be paid shall be the prevailing Bank of Uganda selling exchange rate at the date of bid submission deadline.

57. Price Adjustment

57.1 Prices payable to the contractor, as stated in the contract, shall be subject to adjustment during performance of the contract to reflect changes in the cost of labor and material components in accordance with the formula:

$$\Delta P = P_0 \left(a + b \frac{L_1}{L_0} + c \frac{M_1}{M_0} \right) - P_0$$

in which:

ΔP = adjustment amount payable to the Contractor.

P_0 = contract price (base price).

a = fixed element representing profits and overheads included in the contract price and generally in the range of five (5) to fifteen (15) percent.

b = estimated percentage of labour component in the contract price.

c = estimated percentage of material component in the contract price.

L_0, L_1 = labor indices applicable to the appropriate industry in the country of origin on the base date and date for adjustment, respectively.

M_0, M_1 = material indices for the major raw material on the base date and date for adjustment, respectively, in the country of origin.

The coefficients a , b , and c shall be specified by the PDE in the bidding documents. The sum of the three coefficients should be one (1) in every application of the formula.

The bidder shall indicate the source of the indices and the base date indices in his bid. Base date = thirty (30) days prior to the deadline for submission of the bids.

Date of adjustment = weeks prior to date of shipment (representing the mid- point of the period of manufacture).

The above price adjustment formula shall be invoked by either party subject to the following further conditions:

- i. Price adjustment will be applied only if the resulting increase or decrease is more than ___ percent of the contract price.

[Two (2) percent would be an acceptable percentage.]

- ii. No price adjustment shall be allowed beyond the original delivery dates unless specifically stated in the extension letter. As a rule, no price adjustment shall be allowed for periods of delay for which the contractor is entirely responsible. The PDE will however be entitled to any decrease in the prices of the supplies and services subject to adjustment.
- iii. The total adjustment under this clause shall be subject to a ceiling of plus or minus percent of the contract price.

[Ten (10) percent would be an acceptable percentage.]

- iv. If the currency in which the contract price P0 is expressed is different from the currency of origin of the labour and material indices, a correction factor will be applied to avoid incorrect adjustments of the contract price. The correction factor shall correspond to the ratio of exchange rates between the two currencies on the base date and the date for adjustment as defined above.

57.2 No price adjustment shall be payable on the portion of the contract price paid to the contractor as advance payment.

57.3 If the value of the index is changed after it has been used in a calculation, the calculation shall be corrected and an adjustment made in the next payment certificate. The index value shall be deemed to take account of all changes in cost due to fluctuations in costs.

58. Retention

58.1 If so stated in the SCC, the PDE shall retain from each payment due to the contractor the proportion stated in the SCC until completion of the whole of the works.

58.2 On completion of the whole of the works, half the total amount retained shall be repaid to the contractor and half when the defects liability period has passed and the project manager has certified that all defects notified by the project manager to the contractor before the end of this period have been corrected.

58.3 On completion of the whole works, the contractor may substitute the remaining half of the retention money with an “on demand” Bank guarantee.

59. Liquidated Damages

- 59.1 If so stated in the SCC, the contractor shall pay liquidated damages to the PDE. If the employer intends to claim liquidated damages, the employer shall give notice to the contractor within 28 working days from the date he became aware of the circumstances giving right to the claim. The liquidated damages shall be at the rate per day stated in the SCC for each day that the completion date is later than the intended completion date. The total amount of liquidated damages shall not exceed the amount defined in the SCC. PDE may deduct liquidated damages from payments due to the contractor. Payment of liquidated damages shall not affect the contractor's liabilities.
- 59.2 If the intended completion date is extended after liquidated damages have been paid, the project manager shall correct any overpayment of liquidated damages by the contractor by adjusting the next payment certificate. The contractor shall be paid interest on the overpayment, calculated from the date of payment to the date of repayment, at the rates specified in Sub-Clause 53.

60. Bonus

- 60.1 If so stated in the SCC, the contractor shall be paid a bonus calculated at the rate per working day stated in the SCC for each day (less any days for which the contractor is paid for acceleration) that the completion is earlier than the intended completion date. The completion date shall be certified in accordance with GCC 65.

61. Advance Payment

- 61.1 If so stated in the SCC, the PDE shall make advance payment to the contractor of the amounts stated in the SCC within the period stated in the SCC, against provision by the contractor of an on-demand Bank Security in a form and from an institution acceptable to the Bank of Uganda in amounts and currencies equal to the advance payment. The guarantee shall remain effective until the advance payment has been repaid. The amount of the guarantee shall be progressively reduced by the amounts repaid by the contractor. Interest will not be charged on the advance payment.
- 61.2 The contractor is to use the advance payment only to pay for equipment, plant, materials, and mobilisation expenses required specifically for execution of the contract. The contractor shall demonstrate that advance payment has been used in this way by supplying copies of invoices or other documents to the project manager.
- 61.3 The advance payment shall be repaid by deducting proportionate amounts from payments otherwise due to the contractor, as specified in the SCC, following the schedule of completed percentages of the works on a payment basis. No account shall be taken of the advance payment or its repayment in assessing valuations of work done, variations, price adjustments, compensation events, bonuses, or liquidated damages.

62. Performance Security or Performance Securing Declaration and ES Performance Security

- 62.1 If so stated in the SCC, the contractor shall, within twenty-one (21) calendar days of signing the contract, provide a Performance Security or Performance Securing Declaration and, if applicable, an Environmental and Social, (ES) Performance Security for the due performance of the contract

and compliance with the contractor's ESHS obligations. The Performance Security and the ES Performance Security shall be in the amount specified in the SCC and shall be denominated in the currency in which the contract price is payable.

- 62.2 The proceeds of the Performance Security and, if applicable, the ES Performance Security shall be payable to the PDE as compensation for any loss resulting from the contractor's failure to complete its obligations under the contract.
- 62.3 The Performance Security and, if applicable, the ES Performance Security shall be in the form stipulated in Section 9 of contract forms.
- 62.4 The Performance Security or Performance Securing Declaration and, if applicable, the ES Performance Security to the PDE shall be valid until a date twenty-eight (28) days from intended completion date stated in the SCC.
- 62.5 In the event that the contractor has fulfilled all the obligations under the contract, before provision of the Performance Security or Performance Securing Declaration, there shall be no need for submission of the Performance Security or Performance Securing Declaration.

63. Day works

- 63.1 If applicable, the day works rates in the contractor's bid shall be used for small additional amounts of work only when the project manager has given written instructions in advance for additional work to be paid for in that way.
- 63.2 All work to be paid for as day works shall be recorded by the contractor on forms approved by the project manager. Each completed form shall be verified and signed by the project manager within two days of the work being done.
- 63.3 The contractor shall be paid for day works subject to obtaining signed day works forms.

64. Cost of Repairs

- 64.1 Loss or damage to the works or materials to be incorporated in the works between the start date and the end of the defects correction periods shall be remedied by the contractor at the contractor's cost if the loss or damage arises from the contractor's acts or omissions.

E. Finishing the Contract

65. Completion

- 65.1 The contractor shall request the project manager to issue a certificate of completion of the works, and the project manager will do so upon deciding that the work is completed.

66. Taking Over

- 66.1 The PDE shall take over the site and the works within seven days of the project manager's issuing a certificate of completion.

- 66.2 The works and each Section are to be taken over by the employer when two conditions have been satisfied: completion of the works or Section; and. the issue (or deemed issue) of a taking over certificate for the works or Section.
- 66.3 The contractor may apply by notice to the project manager for a taking over certificate not earlier than 14 days before the works will, in the contractor's opinion, be complete and ready for taking over. If the works are divided into Sections, the contractor may similarly apply for a taking over certificate for each Section.
- 66.4 The project manager shall, within 28 days after receiving the contractor's application:
- a. Issue the taking over certificate to the contractor, stating the date on which the works or section were completed in accordance with the contract, except for any minor outstanding work and defects which will not substantially affect the use of the works or Section for their intended purpose (either until or whilst this work is completed and these defects are remedied); or
 - b. Reject the application, giving reasons and specifying the work required to be done by the contractor to enable the taking over certificate to be issued. The contractor shall then complete this work before issuing a further notice under this Sub-Clause.
- 66.5 If the project manager fails either to issue the taking over certificate or to reject the contractor's application within the period of 28 days, and if the works or Section (as the case may be) are substantially in accordance with the contract, the taking over certificate shall be deemed to have been issued on the last day of that period.

67. Final Account

- 67.1 The contractor shall supply the project manager with a detailed account of the total amount that the contractor considers payable under the contract before the end of the defects liability period. The project manager shall issue a defects liability certificate and certify any final payment that is due to the contractor within 56 days of receiving the contractor's account if it is correct and complete. If it is not, the project manager shall issue within 56 days a schedule that states the scope of the corrections or additions that are necessary. If the final account is still unsatisfactory after it has been resubmitted, the project manager shall decide on the amount payable to the contractor and issue a payment certificate.

68. Operating and Maintenance Manuals

- 68.1 If "as built" drawings and/or operating and maintenance manuals are required, the contractor shall supply them by the dates stated in the SCC.
- 68.2 If the contractor does not supply the drawings and/or manuals by the dates stated in the SCC, or they do not receive the project manager's approval, the project manager shall withhold the amount stated in the SCC from payments due to the contractor.

69. Termination

- 69.1 The PDE or the contractor may terminate the contract if the other party causes a fundamental breach of the contract.

69.2 Fundamental breaches of contract shall include, but shall not be limited to, the following:

- a. The contractor stops work for 28 days when no stoppage of work is shown on the current program and the stoppage has not been authorised by the project manager;
- b. The project manager instructs the contractor to delay the progress of the works, and the instruction is not withdrawn within 28 days;
- c. The PDE or the contractor is made bankrupt or goes into liquidation other than for a reconstruction or amalgamation;
- d. A payment certified by the project manager is not paid by the PDE to the contractor within 84 days of the date of the project manager's certificate;
- e. The project manager gives notice that failure to correct a particular defect is a fundamental breach of contract and the contractor fails to correct it within a reasonable period of time determined by the project manager;
- f. The contractor does not maintain a security, which is required; and
- g. The rate of progress of the works at any time during the period of the contract is such that the completion of the works will, as measured against the current program, be delayed by the number of days for which the maximum amount of liquidated damages can be imposed.
- h. If the contractor in the judgement of the PDE has engaged in corrupt, fraudulent, collusive or coercive practices in competing for or in the executing the contract.

For the purposes of this paragraph:

- i. "Corrupt practice" means the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value, to influence the action of a public official in the procurement process or in contract execution; and
- ii. "Fraudulent practice" is any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;
- iii. "Collusive practice" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
- iv. "Coercive practice" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;

69.3 When either party to the contract gives notice of a breach of contract to the project manager for a cause other than those listed under Sub-Clause 69.2 above, the project manager shall decide whether the breach is fundamental or not.

69.4 Notwithstanding the above, the PDE may terminate the contract for convenience.

69.5 If the contract is terminated, the contractor shall stop work immediately, make the site safe and secure, and leave the site as soon as reasonably possible.

70. Payment upon Termination

70.1 If the contract is terminated because of a fundamental breach of contract by the contractor, the project manager shall issue a certificate for the value of the work done and materials ordered less

advance payments received up to the date of the issue of the certificate and less the percentage to apply to the value of the work not completed, as indicated in the SCC. Additional liquidated damages shall not apply. If the total amount due to the PDE exceeds any payment due to the contractor, the difference shall be a debt payable to the PDE.

70.2 If the contract is terminated for the PDE's convenience or because of a fundamental breach of contract by PDE, the project manager shall issue a certificate for the value of the work done, materials ordered, the reasonable cost of removal of equipment, repatriation of the contractor's personnel employed solely on the works, and the contractor's costs of protecting and securing the works, and less advance payments received up to the date of the certificate.

71. Release from Performance

71.1 If the contract is frustrated by the outbreak of war or by any other event entirely outside the control of either the PDE or the contractor, the project manager shall certify that the contract has been frustrated. The contractor shall make the site safe and stop work as quickly as possible after receiving this certificate and shall be paid for all work carried out before receiving it and for any work carried out afterwards to which a commitment was made.
